Sustainable Future: Multidisciplinary Pathways to Education, Innovation, and Global Wellbeing

Dates: January 29-30, 2026

**Sponsored by
Department of Higher Education,
Haryana**

Organised by

**Government College for Girls, Sector-52,
Gurugram
in collaboration with**

Government College Rithoj, Gurugram

About the Collaborating Colleges

Government College for Girls, Sector-52, Gurugram, is a premier state-run educational institution affiliated with Gurugram University and located in the heart of the millennium city. The College has a lush green, spacious campus that provides state-of-the-art facilities to young learners. Established in 2019, it currently offers undergraduate and postgraduate programmes in Humanities, Science, and Commerce. It is also actively engaged in community outreach through its NSS wing and other cells. The College has implemented several innovative initiatives, including a CSR-run personality development cell, a mental wellness cell, CSR-funded skill-enhancement programmes, and student-led entrepreneurial projects. The College is rapidly emerging as a sought-after educational institution in the area.

Government College Rithoj, Gurugram, affiliated with Gurugram University, is located in Rithoj village near Gurugram city. Established in 2018, it was created to serve students from rural areas, especially girls, who had previously lacked access to a state-run higher education institution. The College offers undergraduate programmes in Arts and Commerce. It has been instrumental in shaping the future of rural youth and supporting community development through collaboration with NGOs such as the Navjyoti India Foundation, Rithoj. Through its student-led initiatives, the College works to raise awareness and drive positive change on issues related to environmental protection, rural development, and more.

About the Conference

The 21st century presents humanity with complex challenges and unprecedented opportunities. Climate change, rapid technological advancements, widening inequalities, and shifting global economies demand holistic, inclusive, and sustainable solutions. Education, research, and policy innovation play a vital role in addressing these challenges, while simultaneously advancing the United Nations Sustainable Development Goals (SDGs).

This international multidisciplinary conference will provide a platform for scholars, academicians and industry leaders to engage in meaningful dialogue on how education, innovation, governance, technology, and culture can work together to shape a sustainable future.

Conference Sub-Themes/Tracks

1. Education and Policy

- Reimagining higher education in the 21st century
- National policies and global goals: Aligning with SDGs
- Multilingualism, equity, and inclusive learning
